- KEYBOARDS—\$5.00

HOW CAN I BE SAFE IN TRANSPORTING THESE HAZARDOUS MATERIALS?

Before transporting hazardous waste to the collection area, be sure that:

- The waste is in its original container;
- The containers are sound and not leaking. (If a container is leaking, place entire container into a larger container of the same type)
- Products are packed closely in a sturdy open box so they will not spill. Do not use plastic bags.

NEVER MIX DIFFERENT MATERIALS!

Keep anti-freeze, waste oil and other auto products separated.

WHAT NOT TO

Latex paint (Latex paint is not hazardous when dry. Open cans of latex paint, leave open until all paint is dried out, then dispose of dried can and lid in garbage. To aid in drying large amounts, stir in some kitty litter.)

Ammunition, fireworks, explosives

Radioactive wastes

Gas grills/tanks

Infectious & biological wastes

Smoke detectors

Auto, other wet cell batteries

Tires

White goods
