

Important Information Regarding Xfinity Services and Pricing

Effective December 20, 2019

To our viewers, streamers, gamers, and online shoppers,

At Xfinity, we love keeping you connected to what matters most. We're proud to deliver exciting experiences you won't find anywhere else.

We want to let you know about some improvements we've made to your services, and also to tell you the cost of some of our services will be increasing. Nobody likes price increases, including us, but they happen periodically for a few reasons. Network programming fees—the amount networks charge us to put their channels on our cable system—go up every year, and they are among our biggest expenses. While we absorb some of these costs, these fee increases affect service pricing.

We continue to invest in our products and services. These investments lead to big improvements year after year, including:

- Powerful in-home WiFi and a more reliable network with more capacity
- The fastest Internet speeds in the country
- Exciting new technology you depend on, and the integration of the apps you use every day
- Thousands of shows and movies available to watch on any screen, for our TV and Internet customers alike

You deserve the best, so we won't compromise on the experiences we create for you. As always, we sincerely thank you for being an Xfinity customer.

Your Xfinity Team

If you have a promotional offer with your services right now or you are on a minimum term agreement for your services, the prices for those specific services will not be affected during the applicable period. However, equipment charges, charges for additional features, taxes, and other fees, including the Broadcast TV Fee and Regional Sports Network Fee, are subject to change and could affect the overall amount you pay during the applicable period. When your promotional offer or contract term ends, your price for those services will reflect our new package prices.

Experience the benefits of Xfinity

Xfinity Internet:

The fastest Internet speeds in the country, including offering 1 Gigabit download speeds, available to 90% of our customers
