The treatment is tentatively scheduled for early June to mid-July 2023. Based on past experiences, we expect that the State will impose **restrictions** on the use of treated pond water for **irrigation** purposes. The specific use restrictions will be determined at the time the permit is issued and will be communicated directly to you in the notification of treatment that will be sent by certified-mail.

The restrictions extend to direct water intakes located within 200 feet of the treatment areas and to wells within 50 feet of the treatment areas. **Intakes (black pipe) that draw water directly from Phillips Pond, within 200 feet of proposed treatment areas, WILL be subject to irrigation restrictions.** If you have a well within 50 feet of the lake or an intake, please let us know by contacting our office weekdays at (866) 480-1271 or by emailing NewHampshire@SolitudeLake.com. Please be sure to reference **Phillips Pond** in your email.
