"Partnering to make recycling strong through economic and environmentally sound solutions"

Sandown, NH

Congratulations for being such active recyclers!

Below please find information on the positive impact your recycling has had on our environment.

The recyclable materials listed below were sent to market to be remanufactured into new products through your non-profit recycling organization, the Northeast Resource Recovery Association.

Recyclable Material	Amount Recycled In 2018	Environmental Impact! Here is <u>only one</u> benefit of recycling materials rather than manufacturing products from virgin resources
Aluminum Cans	20,680 lbs.	Conserved enough energy to run a television for 2,105,224 hours!
Electronics	44,061 lbs.	Conserved enough energy to power 5.6 houses for one year!
Paper	217.6 tons	Saved 3,693 trees!
Scrap Metal	137.1 gross tons	Conserved 383,925 pounds of iron ore!
Tires	6.3 tons	Conserved 4.1 barrels of oil!

Avoided Emissions:

Recycling uses much less energy than making products from virgin resources, and using less energy means fewer greenhouse gases emitted into the atmosphere.

By recycling the materials above, you have avoided about **1,542 tons** of carbon dioxide emissions
This is the equivalent of removing **328 passenger cars** from the road for an entire year!
