In 2020, the Sanitation Department has been busier than ever since so many residents have been home for some months due to COVID 19 resulting in an increase in the volume of trash received at the transfer station. The crew has handled it well and will continue to handle it in the future.

As has been the case over the past few years, our return on recyclables is still way down, but the result is that they are still not ending up in our trash. Thank you for your continued support of the recycling program.

I would like to thank Southeast Regional Refuse Disposal, North East Resource Recovery Association, Waste Management, Great Rate Container Service and JD Recyclables.

Respectfully submitted,

Arthur Genuardo
Public Works Director
